

Name of the internship supervisor: Dr. Eng. Konrad Wojdan

Position: Director of R&D

Company: Transition Technologies Science Sp. z o.o.

Company Address: Pawia 55, 01-030 Warszawa

Date: 22.10.2023

Dear Sir/Madam/Sirs,

We would like to certify that in the period from 18.09.2023 to 18.10.2023 Przemyslaw Marciniak, a student at Wroclaw University of Technology, served an internship in our company. During this period, he collaborated with Our team as a support person for project work. His responsibilities included:

- Development of a program to analyze 3D lung CT scans for cancerous lesions:
 - Analyze the available scientific literature for existing solutions,
 - Writing the program and learning the artificial intelligence models,
 - Implementing XAI (Explainable AI) algorithms to verify the model's decision-making process,
 - Prepare a presentation summarizing the process of program development and showing the results obtained.

During the execution of the commissioned work, we got to know Przemek as a conscientious and hard-working person. We certainly noticed his willingness to work independently and his problem-solving skills in artificial intelligence programming and task organization. We also highly valued his communication and cooperation skills. We saw him as our potential employee, as our evaluation was at a high level. By issuing this recommendation, we would like to confirm that Przemyslaw is a trustworthy person and certainly, as an employee, he will be a very good colleague. Although this is just the beginning of his career, we are sure that he can contribute a lot to the work of the team in which he will be placed.

If you need additional information, please contact me konrad.wojdan@ttsi.com.pl, +48 603-910-108.

Yours faithfully,

Dr inż. Konrad Wojdan
